Mayur Kadam

Java Full Stack Developer

Hyderabad | mayur31kadam@gmail.com | 9022101332 | LinkedIn | GitHub | Portfolio

PROFILE

Java Full Stack Developer with hands-on training in Java, Spring Boot, Hibernate, REST APIs, MySQL, Oracle, and front-end development (HTML5, CSS3, JavaScript, Bootstrap, React.js). Built a full-stack Employee Management System with CRUD REST APIs documented in Swagger, and a responsive portfolio website deployed on Netlify. Currently a Software Engineer Trainee, seeking an entry-level Java Developer / Full Stack Developer role.

SKILLS

Languages: Core Java, OOP, Java Collections, JavaScript (ES6)

Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate

Frontend: HTML5, CSS3, JavaScript (DOM), Bootstrap, React.js (basics)

Databases: Oracle, SQL, MySQL

Tools & Platforms: Git, GitHub, Eclipse, VS Code, IntelliJ, Maven, Postman, Swagger, Netlify

PROJECTS

Employee Management System | Java, Spring Boot, Spring Data JPA, MySQL, REST API, Swagger

- Developed a full-stack application using Spring Boot and Spring Data JPA following MVC and layered (Controller-Service-Repository) architecture.
- Implemented complete CRUD operations for employee records with MySQL as the database.
- Built RESTful APIs supporting GET, POST, PUT, and DELETE, and tested them with Postman.
- Integrated Swagger for API documentation and testing.

Click: Git-Hub-Repo

Personal Portfolio Website | HTML5, CSS3, JavaScript

- Designed and built a responsive, multi-section portfolio (About, Skills, Projects, Contact) with a sticky navbar, smooth scrolling, and a mobile layout.
- Adding interactive features with JavaScript DOM manipulation (mobile menu, form validation).
- Deployed on Netlify with Git-based version control.

EXPERIENCE

Software Engineer Trainee | DreamCodex Systems | Remote **Feb 2026 – Present**

- Develop responsive web interfaces using HTML5, CSS3, JavaScript, and Bootstrap, including Flexbox and Grid layouts, transitions, and mobile layouts.
- Implement interactive features using JavaScript, DOM manipulation, and event handling; built a login page, a DOM-based mini project, and a responsive portfolio website deployed on Netlify.
- Use Git and GitHub for version control and report progress daily to the team lead through a task log covering status, issues, and hours.

.

Full Stack Java Developer – Naresh IT | Hyderabad | 2024 – 2025

- Completed a Full Stack Java Developer course covering Core Java, Spring, Spring Boot, JSP, JDBC, Hibernate, Git, and database development.
- Developed applications integrating frontend interfaces, backend services, and Oracle database.
- Worked with Spring Boot and React.js to build application components and implement database-driven functionality.
